Entisys360's Microsoft Consulting Services combines people, tools, analysis, and processes to help you make the most of your investment in Microsoft cloud solutions. Our dedicated team of Microsoft experts will help maximize your investment in the Microsoft 365 integrated security solutions.

Security360 Workshop:

- Threat Check – Identify live threats in your organization
- Deliver the Microsoft Security Story and planning customized for your organization
- Security Automation implementation, get secure and stay secure

What We Offer

Our Office 365 risk management solution will apply critical security settings using Azure Automation runbooks to verify and configure settings nightly automatically. Secure Score can be referenced within the Office 365 tenant to view recommended security actions.

Identify real threats to your Microsoft 365 cloud environment by doing a Threat Check, which identifies threats that exist today that have not been remediated in your critical data stored in Microsoft 365

This includes: Malicious OAuth apps, Suspicious user activities, Malware, Phishing emails, and Compromised user accounts.

A list of actionable recommendations to help immediately mitigate the identified threats. High level phased implementation plan from cybersecurity pros.

Work with you to understand your security goals and objectives and deliver the end-to-end Microsoft Security Story.

An inside look at Microsoft's holistic approach to security and how it relates to your organization.

"The security workshop allowed us to understand the security controls we had available and developed a plan to implement them into our security operations; they even set up Automation to help keep things secure."

Microsoft 365

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.

Key Use Cases

BUSINESS-CLASS EMAIL
Build anything from lightweight websites to multitier cloud services that scale up as your business grows.

CLOUD STORAGE
Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

MEET ONLINE
Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

COLLABORATE AND CHAT PRIVATELY
Accelerate your mobile app development by using a backend hosted on Microsoft Azure.

Why Microsoft 365

SAVE YOUR COMPANY MONEY

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

SIMPLIFIED IT MANAGEMENT

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

TECHNICAL SUPPORT

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

FINANCIALLY BACKED SLA

Get peace of mind knowing that your services are available when you need them with a financially backed, 99.9 percent uptime service level agreement.

SCALE YOUR BUSINESS QUICKLY AND FLEXIBLY

Microsoft 365 grows with you on the Microsoft Azure cloud.

Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on as many as five PCs/Macs and five mobile devices. Microsoft 365 provides an array of plans to fit the right capability needs and price points for every user in your organization.
